SAFETY

To eliminate any liability, costly project delays and unexpected, unnecessary costs, Carpenter Drilling makes safety its first priority. Keeping not only our staff, but also our clients and subcontractors safe on and off the job.

In order to provide a safe work environment and to ensure all necessary precautions for safety are taken in the workplace, our staff has advanced training and certifications in the following:

- OSHA 40 hour training
- OSHA 30 hr construction supervisor
- OSHA 10 hr worker construction
- MSHA certified
- First Aid and CPR certified
- Forklift certification
- Crane certification

EQUIPMENT

A successful drilling project requires the right equipment. Carpenter Drilling employs cutting edge drilling technologies, including the BOART LONGYEAR LF 90D Diamond Core Drill. The drill is a workhorse and has proven itself to be one of the most productive drills in its class.

DRILLING CAPABILITIES	DRY HOLE	FLUID FILLED
DRILL ROD/CORE BARREL	HOLE DEPTH (FT.)	HOLE DEPTH (FT.)
BRQ/BQ	3968	4543
BRQTK/BQTK	4995	5722
NRQ/NQ/NQ2	3053	3492
NRQ V-WALL™	3451	3915
HRQ/HQ	2071	2370
HRQ V-WALL™	2607	2947
PHD/PQ	1368	1562
PHD V-WALL™	1865	2089

THE EQUIPMENT UPHOLDS OUR SAFETY STANDARD:

- Equipped with counterbalance valves for increased safety
- Easy to operate and maintain hydraulic system and lift-to-shift levers providing additional operator safety
- Direct-coupled hydraulic pumps with a PTO-driven auxiliary pump allow for easy maintenance.
- Superior performance and reliability in its rigid design even under the toughest conditions
- Patented nitrogen gas spring jaws with hydraulic open/spring close function ensuring fail-safe operation.

SAFETY | RESPECT | TRUST
